The Water Utility Council shall have the responsibility of developing response and comment within the framework of Association policy on legislative and regulatory matters directly affecting water utilities. The council shall also have the responsibility of bringing to the attention of other councils and committees of the Association policies and procedures that will make possible better water service to the public.

To develop, respond and comment on legislative issues directly or indirectly affecting the water utilities. All positions taken will be coordinated throughout the Association, be in compliance with approved policy, and be approved by the Executive Committee as a minimum.

To develop, respond, and comment on regulatory matters directly or indirectly affecting water utilities. All positions taken will be coordinated throughout the Association, be in compliance with approved policy and approved by the Executive Committee as a minimum.
